### ***North Shore Radiology at Glen Cove, P.C Selects Ivy Ventures as Development Partner for Imaging Services***

Richmond, VA, September 4, 2007

North Shore Radiology at Glen Cove, P.C., a subsidiary of North Shore – Long Island Jewish Health System, has selected Ivy Ventures LLC of Richmond, Virginia as their strategic planning partner to expand outpatient imaging services. Ivy Ventures will support strategic planning, analyze relationships with key physician groups, assess the market and competitive environment, assist in equipment selection and deployment, review capital investment opportunities, and market diagnostic imaging services for the Glen Cove, Long Island based facility. North Shore Radiology at Glen Cove is located at 10 Medical Plaza in Glen Cove, NY.

Earlier this month, North Shore Radiology at Glen Cove announced its plan to upgrade technology through the selection of Siemens open-bore 1.5T high-field MRI, Siemens 40-Slice CT and Siemens multi-slice PET/CT. The unique clinical capabilities brought on by North Shore-LIJ's multi-million dollar investment, combined with fast and flexible scheduling of outpatient radiology services, create an environment of unparalleled access to diagnostic services and sophisticated medical care.

Robert Dubicki, North Shore-LIJ's Senior Vice President of Ambulatory Care, said "Our objective is to enhance and improve the quality of care that our patients and physicians experience, by growing our diagnostic imaging program. We have plans for significant investments in cutting edge medical equipment and renovations to vastly improve our outpatient radiology services. We feel that Ivy Ventures' unique programs will allow us to better serve our patients while improving patient satisfaction and increasing utilization of our clinical assets."
